

GreenHome

INSTITUTE

If the exterior walls are of similar construction, insulation and/or finish on all sides of the home select "Yes". If some exterior walls have differences in construction, insulation and/or finish from other sides of the home, select "No". Selecting "No" will provide additional fields to enter the wall data for each side of the house. If one side of a house has different types of wall construction, select the type that is the largest in area.

Right and Left are from the street perspective, as one faces the front of the house from the street.

If "Yes" was chosen for Townhouse or Duplex, only the appropriate exterior walls based on the position of the townhouse will be available.
